

Appendix 4: Demographic Statistics of MALDEF California Statewide Redistricting Plans for State Assembly

The following demographic and registration information tables identify the racial and ethnic composition of the districts in the MALDEF State Assembly District Redistricting Plans.

Data Notes and Sources:

- The Population and Voting Age Population Data are derived from the U.S. Census Bureau's 2010 PL94-171 Redistricting Data. Population figures are the U.S. Department of Justice suggested aggregations for race and ethnicity used for compliance with the Voting Rights Act.
- The Citizen Voting Age Population data is the aggregation of the 2010 block level database derived from the U.C. Berkeley Statewide Database (<http://swdb.berkeley.edu>), based on the U.S. Department of Justice's Special Tabulation of the U.S. Census Bureau's American Community Survey 5-Year Estimate Data (2005-2009). Citizen Voting Age Population figures are the U.S. Department of Justice suggested aggregations for race and ethnicity used for compliance with the Voting Rights Act.
- The registration data is the aggregation of the 2010 block level database derived from the U.C. Berkeley Statewide Database (<http://swdb.berkeley.edu>). Only surname registration figures for Latinos and Asians were present in the database and compiled for the following tables. Asian Registration is the aggregation of the Chinese, Japanese, Korean, Filipino, Asian Indian, and Vietnamese surname dictionaries.
- Registration figures are based on the November 2010 General Election.

Notes About District Labeling:

For ease of comparison, the district numbers presented here attempt to line up with current existing (or "benchmark") districts, and are not an attempt to official renumber districts.

Appendix 5: Demographic Statistics of MALDEF California Statewide Redistricting Plans for State Senate

The following demographic and registration information tables identify the racial and ethnic composition of the districts in the MALDEF State Senate District Redistricting Plans.

Data Notes and Sources:

- The Population and Voting Age Population Data are derived from the U.S. Census Bureau's 2010 PL94-171 Redistricting Data. Population figures are the U.S. Department of Justice suggested aggregations for race and ethnicity used for compliance with the Voting Rights Act.
- The Citizen Voting Age Population data is the aggregation of the 2010 block level database derived from the U.C. Berkeley Statewide Database (<http://swdb.berkeley.edu>), based on the U.S. Department of Justice's Special Tabulation of the U.S. Census Bureau's American Community Survey 5-Year Estimate Data (2005-2009). Citizen Voting Age Population figures are the U.S. Department of Justice suggested aggregations for race and ethnicity used for compliance with the Voting Rights Act.
- The registration data is the aggregation of the 2010 block level database derived from the U.C. Berkeley Statewide Database (<http://swdb.berkeley.edu>). Only surname registration figures for Latinos and Asians were present in the database and compiled for the following tables. Asian Registration is the aggregation of the Chinese, Japanese, Korean, Filipino, Asian Indian, and Vietnamese surname dictionaries.
- Registration figures are based on the November 2010 General Election.

Notes About District Labeling:

For ease of comparison, the district numbers presented here attempt to line up with current existing (or "benchmark") districts, and are not an attempt to official renumber districts.

Data Sources: Population and VAP Data from 2010 Census PL94-171; CVAP Data from Census ASC (2005-2009 5-Year Estimates); Registration Data from Statewide Database; Race/Ethnicity Statistics are DOJ Recommended Aggregations

Appendix 6: Demographic Statistics of MALDEF California Statewide Redistricting Plans for U.S. House of Representatives

The following demographic and registration information tables identify the racial and ethnic composition of the districts in the MALDEF California U.S. Congressional District Redistricting Plans.

Data Notes and Sources:

- The Population and Voting Age Population Data are derived from the U.S. Census Bureau's 2010 PL94-171 Redistricting Data. Population figures are the U.S. Department of Justice suggested aggregations for race and ethnicity used for compliance with the Voting Rights Act.
- The Citizen Voting Age Population data is the aggregation of the 2010 block level database derived from the U.C. Berkeley Statewide Database (<http://swdb.berkeley.edu>), based on the U.S. Department of Justice's Special Tabulation of the U.S. Census Bureau's American Community Survey 5-Year Estimate Data (2005-2009). Citizen Voting Age Population figures are the U.S. Department of Justice suggested aggregations for race and ethnicity used for compliance with the Voting Rights Act.
- The registration data is the aggregation of the 2010 block level database derived from the U.C. Berkeley Statewide Database (<http://swdb.berkeley.edu>). Only surname registration figures for Latinos and Asians were present in the database and compiled for the following tables. Asian Registration is the aggregation of the Chinese, Japanese, Korean, Filipino, Asian Indian, and Vietnamese surname dictionaries.
- Registration figures are based on the November 2010 General Election.

Notes About District Labeling:

For ease of comparison, the district numbers presented here attempt to line up with current existing (or "benchmark") districts, and are not an attempt to official renumber districts.
